## **Explanation of Affiliate Level Membership with the Governor's Office for Children and Families' Commercial Sexual Exploitation of Children (CSEC) Task Force**

Affiliate level membership with the Governor's Office for Children and Families' Commercial Sexual Exploitation of Children (CSEC) Task Force is explained as:

Public, private, civic, faith-based and other organizations that are involved in initiatives, programs, activities and the like that are *affiliated* with impacting some aspect of the CSEC problem, and that elect to have their efforts and impact documented as a viable part of Georgia's CSEC work. These entities elect to not have a direct involvement with specific GOCF-CSEC Task Force projects, though their efforts are coordinated with or may in fact support, reinforce, or otherwise contribute to the success of such projects. Representatives of these organizations may or may not attend Task Force Work Group meetings. When they do so, it is strictly in role supportive of Work Group projects.

Affiliate level members have as much or as little involvement with CSEC Task Force workgroups as they choose. There are no time requirements or restrictions that Affiliate level members must adhere to in order to remain an Affiliate level member. Affiliate level members participate in the quarterly GOCF CSEC Task Force meetings and offer their support and coordinated efforts to workgroup projects as needed or requested.

Affiliate level members with the GOCF CSEC Task Force initially complete an Affiliate level application and sign a statement of request for Affiliate level membership. The purpose of requesting membership is to provide individuals and organizations with a formal, fair, and responsive process for becoming a member of the GOCF-CSEC Task Force. Affiliate level members are decided on by the Governor's Office for Children and Families.
